

OnCommand® Connection Introduces FLEET HEALTH MONITORING

**PREDICT WHICH
VEHICLES HAVE A HIGHER
PROBABILITY OF FAILURE**

**REDUCE MAINTENANCE
AND REPAIR COSTS**

**INCREASE VEHICLE
UPTIME**

**EXTEND THE LIFECYCLE
OF SCHOOL BUSES**

WE WATCH YOUR FLEET WHILE YOU WATCH OVER YOUR STUDENT RIDERS

Fleet Health Monitoring is a managed service from OnCommand® Connection that uses Advanced Remote Diagnostics to interpret diagnostic trouble codes from virtually any telematics device equipped on your vehicle.

We can monitor your fleet to spot high-priority maintenance issues. We send detailed reports to your maintenance team so you can prioritize repairs and avoid costly tows, expensive repairs and unproductive downtime.
