

OnCommand[®] Connection Inspection Reference Card

Please keep this card in your vehicle at all times.

Summary:

The OnCommand Connection Electronic Driver Log plugs directly into the vehicle's diagnostic port, transferring engine data via Bluetooth[®] to the app on the driver's phone or tablet. When using this ELD, drivers are not able to edit driving time.

The OnCommand Connection Electronic Driver Log is compliant with FMCSR 49 CFR §395.8 regarding driver's record of duty status and §395.15 regarding automatic on-board recording devices.

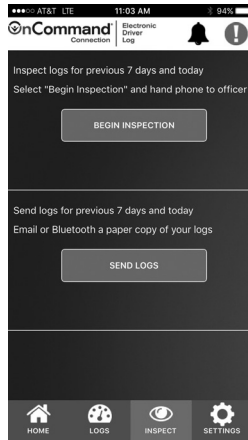

Inspection Instructions:

Driver

1. Select the Inspect menu tab.
2. To email a copy of your logs to an officer, click Send Logs.
3. To let an officer view your logs on your phone, click Begin Inspection.

Officer

- The log graph details the driver's duty status changes for the day.
- The form includes information about the driver, carrier and vehicle.
- Scroll down to view the previous 7 days logs as well.
